Cape Fox Corporation (CFC) had another record profitable year in 2020 and we all appreciate everyone's resilience throughout this unprecedented year. We head into 2021 with hope and aspirations for another year of greater growth and achievements. CFC and all its subsidiaries accomplished much last year.

CEO'S MESSAGE

“Hope is the thing with feathers that perches in the soul - and sings the tunes without the words - and never stops at all.” -Emily Dickinson

A year ago, our world changed forever as we faced furloughs, layoffs, loss of loved ones, health challenges, the impacts of working from home, and of course a canceled 2020 tourism season. What matters most to Cape Fox Corporation (CFC) always has been supporting our Shareholders, employees, customers, and community. Throughout last year, we had to institute changes and adaptations to our businesses, but the one constant was that CFC still stood out. We stood out for being leaders in our communities and with our customers. Our unity as a team allowed us to keep our businesses open and adapt to the world around us while still providing the quality service and expertise that people have come to expect from CFC and its subsidiaries. We have many exciting plans, projects, and initiatives for 2021 to help continue CFC on its path of growth. I have delighted in watching the growth over the past few years and I am hopeful and encouraged that this new year will bring CFC continued growth, solidarity, and creativity.

There have already been many glimmers of hope for CFC in this first quarter of the new year. In January 2021, CFC was awarded the 2020 Best Business of the Year Award. The last time CFC won this award was more than 25 years ago. This was quite an achievement and exemplified the hard work and dedication of a great Cape Fox Team. In March 2021, Cape Fox Lodge (CFL) reached another

achievement when it was honored with an award from Hotels.com for being “Best Loved by Guests.” This is a tremendous accolade for CFL, and we are very proud. CFL also debuted a new partnership with Baranof Fishing. This partnership allows us to work together and provide an Alaska vacation experience for anyone looking for the ultimate fishing adventure. Additionally, our 47th Annual Meeting of Shareholders and Board Elections at the end of January 2021 were a huge success, even with a more digital format. We welcomed a new Board member, Michael DeWitt. He brings much experience and understanding of CFC, and I look forward to working with him and the rest of the Board as we continue to progress and grow the company.

Our Federal Contracting Group has seen much success over the past few months as well. We have seen new contract awards for SaxmanOne, NAVAR, Cape Fox Facilities Services, and the first contract award to one of CFC's newest subsidiaries, Cape Fox Mountain Point.

At the end of 2020 and early 2021, Concentric Methods (CM) provided one of the proudest moments for CFC. In December 2020, a CM employee on the front lines administering COVID-19 vaccines administered the vaccine to Dr. Anthony Fauci. Dr. Fauci has been the leading expert in the fight over COVID-19. Also, at the end of February 2021, a CM employee went to the White House to administer the vaccination to the White House administration. During that visit, the employee administered the five millionth dose of the COVID-19 vaccine to fight against the pandemic. CFC is proud of all our front-line workers who have been

leaders in the fight. As we start to see hope on the horizon, we thank them for all they have done to get us closer to returning to a more normal routine.

One symbol of a hopeful return is the Annual Shareholder Picnic which will be held in June. We will also be celebrating the passage of the Alaska Native Claims Settlement Act (ANCSA). Fifty years ago, on December 18, 1971, President Richard Nixon signed into law this Act which established Alaska Native claims on land and established Alaska Native Regional Cooperations and local village cooperations like CFC. ANCSA allows us to educate the world about Tlingit culture through art and language while also providing our Shareholders with a financial resource and preservation of lands. This year we celebrate the anniversary of its passage.

CFC has much to celebrate this year already and many promises for more in the months to come. We went through the challenges last year steadfast and united. We gained much as a company and as individuals. As vaccines continue to be distributed, we see a slow return to our normal lives, but we are taking the lessons we learned to better care for ourselves, our family, and our community. We are persevering with hope now and looking forward to another year of success, accomplishment, and unity.

47TH ANNUAL MEETING of Shareholders

2020 was about adapting. The 47th Annual Meeting of Shareholders (Annual Meeting) was no exception. The Annual Meeting was originally scheduled to occur on November 7, 2020. However, as a result of the pandemic, and to ensure everyone's safety, the decision was made to call the Annual Meeting to order and then adjourn until January 30, 2021. Moving the activities of the Annual Meeting meant that the Board Elections were also postponed.

While this Annual Meeting was already different from previous years due to a digital format being implemented, the meeting was still able to finalize the election of three board members to the Cape Fox Corporation (CFC) Board. On January 30, 2021, the 47th Annual Meeting was held along with the elections for the Board, and it was a great success.

CFC appreciates all Shareholders and Board candidates for their participation in this year's Annual Meeting. We are proud to welcome a new member to the CFC Board, Michael DeWitt. Michael ran to be a Board Member so he could be part of the leadership and help the company grow for the next generation. Michael helped to build Cape Fox Lodge in 1989. He has been an integral part of the corporation as a Shareholder and we are delighted to have his leadership on the CFC Board.

Congratulations and welcome to the newly elected Board of Directors! ■

2021 CELEBRATION OF THE STARS

Cape Fox Corporation is Business of the Year in Ketchikan, Alaska

Cape Fox Corporation (CFC) has a long tradition of providing food and shelter for traveling friends. CFC represents the Tlingit Natives of Saxman, Alaska and believes strongly in family and community. CFC believes that by keeping a community healthy, it makes everyone stronger. Throughout 2020, CFC did much to support and give back to the community, and we were recognized for our efforts.

On January 25, 2021, Cape Fox Lodge hosted the Spirit of Resilience awards for the Ketchikan Chamber of Commerce. At the awards ceremony, CFC stood out as a shining star. CFC was awarded the 2020 Best Business of the Year Award. The last time CFC won this award was more than 25 years ago. Last year was an unprecedented year, and CFC stepped up to provide food,

shelter, and unity to our community. Winning this award shows the dedication, hard work, resilience, and unity of the entire Cape Fox Team.

The Greater Ketchikan Chamber of Commerce Community Awards recognize and celebrate businesses and individuals throughout the community who have distinguished themselves by fostering growth, innovation, community service, and excellence in their sectors. CFC is one of those businesses.

CFC stood out from other businesses in the community because of its philanthropic efforts and its education, business, and job opportunities. Community is at the heart of the mission for CFC. We support our community because they are our family

and friends, and during times of struggle, we reach out to provide assistance, support, and opportunity for the whole community. In addition to our Business of the Year win, we want to recognize two CFC leaders who stood out for their dedication, hard work, and selflessness, Corporate Chef Christopher Lemerond, and Cape Fox Commercial Services President Tim Lewis.

News of this important pinnacle for CFC has been picked up by other news agencies across the country including AP News. To see the full press release go to <https://bit.ly/3do3nhh>.

Finally, CFC sends a special congratulations to the other winners and nominees! Community is what makes us strong. ■

Hotels.com Awards Cape Fox Lodge with the Loved by Guests Award for 2021

Every year, over 1,000 hotels compete to be titled a "Loved by Guests" award winner by Hotels.com, a leading booking provider for tourists. Judges are even guests themselves at the properties. Cape Fox Corporation (CFC) and Cape Fox Lodge (CFL) are proud to announce that CFL is a 2021 winner of the Hotels.com Loved By Guests award.

CFL values all our guests. In 2019, we completed renovations and updates to our Lodge, and in 2020, CFL celebrated 30 years in business. We have done much throughout the years to support our community with business opportunities and philanthropy events. CFL's history and cultural offerings have always been highlights for visitors while our premier restaurant and café delights guests with world-class cuisine. We value our guests and want to thank you for your positive feedback regarding your stay – you helped us reach our rating of 8.4! We could not have done it without you.

Hotels.com awards businesses based on the ratings customers provide. The criteria for any property selected as an award-winner in 2021 was based on its high guest rating scores in 2020 and a minimum of 50 guest reviews. In today's fast-paced technology world, Hotels.com recognizes that reviews influence ratings. With over 25 million Hotels.com guest reviews on the website, CFL stood out as a winner.

CFL thanks all our guests. We truly feel honored that you chose Ketchikan, Alaska, for your destination and CFL as your destination of choice. Ketchikan, Alaska, is a vacation of choice for many people with its history, culture, exquisite views, and adventure opportunities. We are grateful to serve you now and in the coming years as we long for vacations again. Check us out! We are open, and we are safe. Book a stay with us today! ■

Cape Fox Commercial HIGHLIGHTS

Spring has come to Alaska! As we begin to see flowers blooming and the sunny days return, Cape Fox Corporation's (CFC's) commercial businesses have been busy sprouting and shining as well. CFC businesses are delighted to have new community events planned, new team members to welcome, and a new partnership to meet new friends. This spring will be a busy and welcoming time for CFC.

Cape Fox Lodge

Cape Fox Lodge (CFL) has had a busy first quarter of the year and is delighted whenever there is a chance to see friends and family from the community. In previous years, there would be an egg hunt for the children. However, CFL believes in the health and welfare of our Ketchikan and Saxman community while still celebrating. So, this year, CFL instead hosted an egg-cellent Easter Brunch on Sunday, April 4th. Many families and friends from the community made reservations and came out to enjoy a delicious specialty menu designed specifically by our chefs for this event. With over 50 food items to select from such as Smoked Prime Rib, Ahi Tuna Poke, and Country-Fried Steak, no one left feeling hungry, and everyone had a hopping good time. ■

U.S. Customs and Border Patrol (CBP)

Cape Fox Mountain Point (CFMP) was awarded its first contract to provide construction services to CBP. The work will include designing and replacing the flooring at the Fort Brown Patrol Station, Vehicle Maintenance Facility in Brownsville, Texas. This award puts CFMP on the map and expands our capabilities to provide quality Facilities and Construction Support Services.

CFMP has established a bona fide office in San Antonio and is in the process of opening the same in Oklahoma to adhere to Small Business Association regulations. These offices give us a local and regional presence and opens the door for CFMP to be awarded sole-source contracts with current and future new customers.

The FTA is an agency under the Department of Transportation and provides financial and technical assistance to local public transit systems. The FTA oversees safety measures and develops advanced technology research.

Cape Fox Federal Integrators

U.S. Air Force

Cape Fox Federal Integrators (CFFI) is working hard as it approaches the end of its 8(a) status at the end of this year. Currently, CFFI is working with several teams on various contracts. CFFI program managers are continuing to produce excellent results, with the benefit of adding to CFFI's already great reputation in the field. The work CFFI has done for the Remotely Piloted Aircraft Squadron Operations Center (RPA SOC) contract continues to garner excellent Contractor Performance Assessment Reports (CPARs), which adds to our credibility as a viable small business. In fact, CFFI has achieved the highest level of qualification fill and the lowest rates of personnel turnover in the history of the program.

In addition, our position on the 711th Human Performance Wing contract has truly been a gain. CFFI has assumed control of numerous positions and, as a result, we are very well positioned to capitalize on when the contract award is finalized. By that time, the CFFI team's performance will be firmly established, as well as CFFI's reputation for responsiveness.

SaxmanOne

SaxmanOne continues to seek new business across the board, both on our own and in conjunction with other strategic partners. We do not graduate from the 8(a) program until 2026, so we have a good, long run ahead of us.

U.S. Navy

SaxmanOne continues to grow dramatically, establishing a reputation for excellence. SaxmanOne continues to fill critical positions for March Air Reserve Base in California, maintaining the first two contracts won since their inception. SaxmanOne has also expanded into the Navy winning a contract last September for support to the Navy's Center for Information Warfare Training. Under this contract, Sax-

manOne provides administrative support to five different locations across the United States. Finally, SaxmanOne's ongoing work with the Department of Justice is once again ramping up after a short hiatus occasioned by the transition from one administration to another. That contract has received excellent CPARS scores. SaxmanOne's newest effort has been with the Office of Naval Research's (ONR) internship programs. This extensive contract consists of four differ-

ent programs for numerous sites across the country, involving thousands of applicants, which must be vetted, cleared, and in-processed, in addition to ensuring their stipends are paid properly. SaxmanOne has been doing magnificent work on the ONR website, working to replace the older site with a modern, user-friendly experience that is much more reflective of the cutting-edge work done by ONR. ■
