KETCHIKAN INNOVATION HUB

Bringing Today's
COMMUNITIES
into the **FUTURE**
through **INNOVATION**

According to Merriam-Webster Dictionary, innovation is the act of introducing new items or new methods. This is certainly the case with the new Ketchikan Innovation Hub (KIH). KIH believes that innovation is the key to creating new jobs, driving economic growth, and addressing our greatest challenges.

continued on page 6

Recognitions. Achievements. Awards.

Cape Fox is delighted to debut its Year-in-Review for 2022. The past year was busy, exciting, successful, and welcoming. Commercially, we saw a return of a tourist season, a new business website, and award wins for our commercial businesses. For the Cape Fox Federal Contracting Group (FCG), we debuted a federal subsidiary, gained many new contracts and customers, and saw additional recognition and growth throughout the year.

MESSAGE FROM COO

“We [Cape Fox] will honor the present by continuing to lead and learn, and we will embrace the future through innovation and development.”

- Harold Mitchell

Happy New Year! As we celebrate the start of a new year, it is also an opportunity to look back and reflect on the successes and celebrations of 2022. This past year was somewhat of a return to normalcy as we met in person again, and we had a full tourism season for the first time in two years. Additionally, our Federal Contracting Group (FCG) ended the fiscal year with a record number of contract wins, the company overall continued to receive awards and accolades, and we found new, unique ways to grow the business and support our Shareholders with increased employment opportunities, events, and resources.

Last year was a profitable and eventful year for Cape Fox Corporation (CFC). This year, 2023, will be historic: CFC is celebrating its 50th year in business. This is more than just a milestone, just as CFC is more than just an ordinary corporation. These fifty years symbolize the legacy and strength of culture and tradition that is at the core of the company. This legacy encapsulates the strong sense of community and family that is integral to the Tlingit culture

and heritage. Our Shareholders are the heart of our corporation and provide the foundation for the rest of our CFC family, including our Board, our employees, our customers, and our partners. As we celebrate the past fifty years, I look forward to seeing what this year and beyond holds for CFC. I know the possibilities are limitless as we continue to build upon not only the strong foundation but also our most recent successes this past year.

We ended with several notable accolades and achievements. The CFC Communications team was again recognized with two new awards, and 108 Taphouse and Burger Bar was recognized with the high honor of being named Top Recommended Restaurant in Ketchikan, Alaska. Additionally, Eagle Health and Kwaan Tech began work on new contract wins, a new FCG subsidiary debuted with a new website, Saxman One provided event management for a successful Indian Nations Conference, and Cape Fox Cares gave back to our community in multiple ways to ensure the holidays could be spent in joy and gratitude by everyone.

Although 2022 was a remarkable year for CFC, we are now focused on 2023, a historic year where we celebrate, honor, and preserve our traditions while simultaneously continuing to expand, grow, and succeed. We will honor the present by continuing to lead and learn, and we will embrace the future through innovation and development. This anniversary will serve to further solidify our legacy as a company that cares, celebrates, and strives for greatness. I am honored to serve as the Chief Operating Officer of this remarkable corporation, and I look forward to celebrating this milestone with everyone.

Gunalchéesh

Harold Mitchell, JD, MS
Chief Operating Officer
Cape Fox Federal Contracting Group

Cape Fox Rings in a Season of Joy

Last year was filled with blessings, achievements, and growth. The best way for Cape Fox Corporation (CFC) to celebrate our good fortunes is by giving back to those that live in our communities.

Thanksgiving Turkey Drive

Thanksgiving is a time for gratitude and thankfulness. We take this time each year to count our blessings and spend time with family and friends. This year has been one of great thankfulness for Cape Fox Corporation (CFC). To show our gratitude and how much we care, CFC used this Thanksgiving to give back to our community in Saxman, Alaska.

On November 22, 2022, Cape Fox Cares, the CFC fundraising program, sponsored a community food delivery to all the families in Saxman, Alaska. Twenty volunteers from Cape Fox Lodge and CFC wanted to ensure that everyone in their community could enjoy a Thanksgiving meal with family and friends. Each family received a 20 lb. turkey, stuffing, mashed potatoes, cranberry sauce, corn, green beans, canned fruit, and a braid of sourdough rolls. In total, 150 turkeys and bags of food were given out to the community.

Christmas Food Drive

The holidays are a beautiful time of the year in Alaska, with snow falling out our windows, presents under the tree, and smiles on family and friends. CFC wanted

to ensure the community felt the joy of the season with a holiday food drive for the third year in a row. On December 21st,

**CFC would like
to give a special
thank YOU
to our amazing
volunteers for
their support
and efforts.**

CFC once again brought the spirit of caring to Saxman, Alaska, through its Cape Fox Cares Program. Volunteers from CFL and CFC gathered to provide the Saxman community with food this holiday season so everyone could enjoy a family meal.

The spirits of our volunteers were high as they provided prime rib, pies, and potatoes to every resident in Saxman, Alaska. There were 15 volunteers from CFL and CFC. CFC is honored to have dedicated employees who volunteered to give the food sets to

Saxman families. While we gave the gift of food, CFC received a much greater gift from the community's smiles and words of appreciation.

CFC's commercial and corporate businesses were not the only entities feeling charitable at the end of the year. For the ninth year in a row, Eagle Health (EH) donated toys to Toys for Tots with support from employees of EH's Defense Health Agency Contract Resource Management contract. In addition, Cape Fox Federal Contracting Group, Cape Fox Federal Integrators, and Cape Fox Facilities Services joined in on the fun with their own Toys for Tots fundraiser at various locations nationwide. Toys for Tots is a program run by the United States Marine Corps Reserve, which distributes toys to children whose parents cannot afford to buy them gifts for Christmas.

We look forward to supporting our communities further in 2023 to make them stronger, connect with our employees, and bring awareness to just how much Cape Fox Cares. ■

CAPE FOX 2022 Year-in-Review

4

Totem Times | Fourth Quarter 2022

Everyone at the company contributes daily to the company's success and any achievements earned. Team Cape Fox has become an industry leader with the force of a unified group of individuals who have led us into the future. The company's success is our success, and we delight in reviewing our accomplishments from 2022:

BUSINESS HIGHLIGHTS

Commercial

- Cruise lines returned to Ketchikan for the first full tourism season in two years
- Cape Fox Lodge (CFL) launched a very successful joint marketing campaign in partnership with Baranof Fishing for the second year
- CFL launched a very successful joint marketing campaign in partnership with Alaska Dream Cruise
- New website for Sweet Mermaids

Federal

- New website pages for Occupational Health and United States Agency for In-

ternational Development (USAID) COVID recruitment, Wolf Lake Services (Wolf Lake), and Cape Fox Mission Systems (CFMS).

- We welcomed a new Federal Contracting Group (FCG) subsidiary with CFMS
- Wolf Lake received its Small Business Administration 8(a) certification
- FCG won several new contracts and new customers, including contracts with the Department of State, USAID, U.S. Army, Department of Homeland Security Immigration and Customs Enforcement, Office of Personnel Management, Federal Deposit Insurance Corporation, U.S. Army Information Systems Engineering Command Joint Interagency Task Force, U.S. Army Medical Department Activity, Federal Transit Administration, and United States Department of the Treasury Alcohol and Tobacco Tax and Trade Bureau

Corporate

- Cape Fox Corporation (CFC) had another year of increased revenue
- CFC rose in the Alaska Business Magazine rankings again for the Top 49ers from #28

in 2021 to #26 in 2022

- May 2022 CFC supported a Stream Restoration Workforce Development Training Workshop hosted by Southeast Alaska Watershed Coalition (SAWC) and Ketchikan Indian Community (KIC) by lending the use of Ward Cove
- The Ketchikan Innovation Hub (KIH) debuted, which was created to develop emerging and smart technologies that provide, enhance, and strengthen native communities.
- CFC launched new website pages on the corporate website for the Eugene Trout Scholarship and Philanthropy, including Cape Fox Cultural Foundation (CFCF) and CFC's new Innovation Hub under Nooya Lake.

PHILANTHROPY HIGHLIGHTS

Cape Fox Cares Program

We developed and participated in more fundraisers this year than in previous years to support the CFCF, Law Enforcement, Alaska Businesses, Toys for Tots, and Education.

- January – Cape Fox Cares supported our local first responders by donating to the Battlefield Lodge Charitable Foundation

- March – Cape Fox Cares provided Jonathan Williams with a donation to represent Alaska at the Special Olympics
- April – July – An online fundraiser was held to support CFCF
- June – Cape Fox Cares contributed to the Smart Community STEM Camp (SCSC), which assisted with enabling 25 children to attend the SCSC in Quantico, Virginia, June 27-30, 2022
- November – CFC hosted its annual Turkey Drive for Thanksgiving
- December – Eagle Health, FCG, and Cape Fox Facilities Services sponsored Toys for Tots events at various locations nationwide
- December – CFC hosted its annual Christmas Dinner Drive for Christmas

2022 AVA Digital Awards

- Gold for CFL and Baranof Fishing marketing partnership campaign ad
- Platinum for Faces of Ketchikan website

CFC has continued to flourish and stand out for its expertise, vision, and cultural traditions, including diversity and community support. CFC creates new possibilities for growth, but the team behind those dreams who put in the work are the ones who led us toward another year of achievement and triumph. Together, we will celebrate in 2023, CFC's 50th anniversary, and we will continue to create new possibilities for growth, innovation, and adventure. ■

Ketchikan Innovation Hub (KIH) was started to promote socio-economic and cultural development. The new KIH focuses on three key areas for smart community solutions: finding technology and innovative ways to enhance the quality of life for its citizens, building an entrepreneurial ecosystem for start-ups and existing businesses, and developing pilot projects for innovators and entrepreneurs deploying cutting-edge smart community solutions for their business or products.

KIH is part of the Regional Innovation Hub Model for Digital Equity. The hub is designed to serve disadvantaged and underserved communities. These innovation hubs are established with local partners and cities/communities based on three key elements: (1) Geographically Centric (2) Demographically Centric, and (3) Service Centric. There is a digital divide for many rural Alaska areas and Native villages. Alaska's geography, terrain, climate, and vast size create significant obstacles to developing a broadband technology infrastructure which is key to the availability of telehealth, online education, and other advanced technologies. Jointly developed and managed by Cape Fox Corporation (CFC) and Planet Defense LLC, KIH will focus on smart health, cybersecurity, smart tourism, entrepreneurship, workforce development, and job-oriented skills development for the young native population. This is a public-private partnership model where major corporations such as the Virginia Innovation Partnership Corporation (VIPIC), Verizon, Amazon Web

Services (AWS), and others are already committed. With the right public/private partnerships and funding, KIH will be the center of excellence to further advance our efforts to develop emerging and smart technologies that provide for, strengthen, and enhance our native community. Ultimately, KIH will become a model for all of Alaska.

Throughout 2022, planning and development were the primary focus for KIH by identifying a group of an initial set of projects, including:

Digital Equity for the Under Served Community

In the new digital transformation culture, tribal nations and communities are being left behind, thus creating a significant wealth and prosperity gap. We need a concerted effort to overcome this challenge. federal and state grants are needed to uplift the targeted communities. KIH will play a significant role in achieving this objective in Ketchikan and across Alaska. We expect to conduct targeted, technology-oriented

pilot projects to test and develop new solutions for the tribal community. Eventually, such new solutions will be implemented for smart health, smart schools, technology-based job training for the youth, entrepreneurship to foster new businesses and cybersecurity for local governments and businesses.

Smart Health and Connected Ambulance and Clinics

New technology such as 5G, telemedicine, mobile health clinics and others are becoming a powerful force in solving health issues in the tribal community. At large, tribal and native populations have not benefited from improved digital health solutions, and we believe the time is now to forge ahead by integrating these technologies to boost tribal health and wellness. This project will test and develop integrated digital technology solutions for improving the health and wellness of the tribal communities in Ketchikan and other Alaska cities. After the pilot project

is completed, full implementation of digital health technology will take place. Implementing smart digital health solutions will enhance community efforts in providing improved healthcare solutions to the elderly and general population in Ketchikan. Testing and developing 5G, telemedicine, and mobile clinic-based smart health solutions for tribal villages and other communities.

Implementing Ketchikan Smart City through Digital Innovation Hub

Ketchikan is a thriving fishing and tourism destination. The local communities' livelihood is tied to these two dominant com-

mercial activities. Yet, the city is far from embracing new and emerging technology and solutions for creating a dynamic commercial environment. Through the Smart City project, we expect to change the current environment, making Ketchikan a thriving commercial and cultural hub to enhance people's livelihood, quality of life, health, and wellness, and maintain the socio-cultural fabric of society. Increasing tourism through Smart Tourism programs will attract a larger client base for fishing in Ketchikan from the mainland and

One major aspect of Ketchikan Innovation Hub is to boost tribal health and wellness care through smart digital solutions.

globally, help local businesses increase their potential market and client base, and make the community more dynamic by enhancing cultural programs for the tourists and other clients. This Smart City project will increase economic and commercial activities, encourage youth to stay in the community, and establish entrepreneurial businesses, create new job opportunities, increase tourism, etc.

Ultimately, to achieve our goals, KIH will be an essential piece of the larger puzzle. KIH will be able to test, maintain, and manage all the various devices, sensors,

and underlying technologies provided by various partners. This will require a transformational approach, meticulous planning, stakeholder involvement, and support from the leaders and governments concerned. KIH will bring into reality the ability for people, businesses, and government in Ketchikan and across Alaska to connect and communicate with one another anytime, anywhere, in an environment of social cohesion and economic development cooperation.

For 2023, one of the first endeavors for the KIH is to bring Smart City technologies to Ketchikan. The VIPC started the Virginia Smart Community Testbed in Stafford County, Virginia, which is the home to developing smart technology for the Commonwealth. It is the first Smart City Testbed involving an IoT platform, fully integrated with 5G and other emerging technologies for Smart Cities around the country. Through our partnerships, we will have access to existing case studies and

applications that can be used to advance the mission of the KIH. By working with our strategic partners, we will maintain the native culture while advancing the community into the world of tomorrow by providing easier access to smart and connected healthcare, advanced online education, research, and public safety and many other advanced technologies. ■

Spring 2023 Trust Dividend Distribution Announcement

The Cape Fox Shareholder Tináa Trust ("Trust") Board of Trustees is pleased to declare a Spring 2023 Trust Dividend Distribution ("Spring Distribution") of \$10.00/trust unit paid out of the Trust. The Spring Distribution is a result of the generous donation from Cape Fox Corporation with their increased revenue and profitability seen over the last few years.

Distribution Schedule for Beneficiaries for Spring Dividend:

- **Wednesday, February 22, 2023**
Record Date is the last day to make changes to stock, gift stock, process estates, or transfer shares.
- **Thursday, March 9, 2023**
Last Day to change beneficiary, banking or mailing information. Update information on MyCapeFox.com.
- **Thursday, March 16, 2023**
Distribution Occurs

As a reminder, dividends distributed by the Trust are tax-free to Beneficiaries. Since dividends are tax-free, Beneficiaries will not receive 1099s for the 2022 IRS tax season. Please be aware that any prizes Beneficiaries won that exceed \$600.00 during the 2022 calendar year are considered taxable. Therefore, those Beneficiaries will receive a 1099 for winning prizes that exceed \$600.00 for the 2022 IRS tax season.

Cape Fox Commercial HIGHLIGHTS

Last year was an outstanding year for Cape Fox Corporation's (CFC) commercial businesses. The first tourism season in two years brought one million cruise passengers to the city. According to Ketchikan Visitors Bureau, the total number of visitors arriving at the downtown docks was 767,101, and 238,101 landed at Ward Cove. In 2023, tourism industry insiders predict that ships arriving in Ketchikan will have a capacity of 1.5 million, more than in 2019, which had 1.3 million cruise visitors come to Ketchikan.

The past quarter brought several events to support our community, a new accolade for 108 Taphouse and Burger Bar, and plans have already begun by Cape Fox Tours for hiring for tourism season 2023. CFC is not just a growing business, it is one with a strong legacy of community support, tourism management, culture preservation, and progressive and strategic thinking for the future. Many of our commercial businesses will be participating in CFC's 50th anniversary celebration this year so stay tuned to our social media and news to learn more.

108 Taphouse and Burger Bar

One of CFC's newer restaurants, 108 Taphouse and Burger Bar, has been a community favorite since its doors opened in 2021. People have remarked and left reviews extolling the food and beverage, ambiance, and community feeling at 108 Taphouse. Now, we can add that it is an award-winning restaurant as well. Restaurant Guru has awarded 108 Taphouse with the Top Recommended Restaurant in Ketchikan award for 2022. 108 Taphouse offers guests friendly service, an inviting ambiance, and food and beverages that showcase the unique Alaska style. It is where you can get handcrafted spices, burgers made from elk, and drinks that are works of art in a glass. Behind the success of 108 Taphouse is the hard-working, creative employees that have truly made the restaurant stand out. CFC is proud of the team that makes 108 Taphouse stand out. Great job, 108 Taphouse and Burger Bar on your Top Recommended Restaurant in Ketchikan award!

Cape Fox Lodge

Cape Fox Lodge (CFL) put the jolly in holly jolly for the 2022 holiday season. CFL was delighted to host the annual end-of-year Maker's Market again. This year's event occurred from December 9th-11th. There was live music, cocktails, food, and of course, shopping. The community came out to support local vendors and artists. This was an excellent event for the end of the year. We got to see our community and neighbors again while supporting our local businesses. We look forward to next year's event. In addition, CFL held its annual gingerbread house display, where Santa stopped by each weekend to visit the community's children.

Cape Fox Tours

Cape Fox Hires! Hiring for tourism season 2023 is already underway. Any shareholders, family, and friends interested in applying for summer seasonal positions can apply through this link bit.ly/CapeFoxHiring.

We are looking for CDL Driver Guides, Non-CDL Driver Guides, Servers, Tour Hosts, Dancers, and much more. Training for each position starts in April and goes through the end of October. Full and Part-time along with Full Season and Partial season positions are available. ■

Lost Shareholders

(Shareholders with Bad Mailing Addresses)

Cape Fox Corporation (CFC) is dedicated to keeping in touch with our Shareholders. We want to ensure you can be reached for future corporate publications including the Totem Times newsletters, job openings, important notices, and future distributions.

We need your help to find the Lost Shareholders listed below:

- Jonathan L. Dunne
- Lawrence I. Lewis
- Charles J. Williams

If you know anyone on this list, please encourage them to update their contact information by registering online or contacting Shareholder Services.

Cape Fox Federal Contracting Group HIGHLIGHTS

Our Cape Fox Federal Contracting Group (FCG) had a busy summer. In 2022, FCG has received **\$190+ Million** in new and renewing contract wins, including the following:

Eagle Health

Contract Wins

2022 was a busy year for Eagle Health (EH). There were several new contract wins from new customers, community events, and workshop training resources.

EH won a contract with the United States Agency for International Development (USAID). This contract will employ 36 EH

staff to provide global response and support for continued COVID-19 Response and Pandemic Preparedness measures. This contract is for one year with two option years. EH has a long history of providing support for USAID, and we are delighted to begin this new contract by growing our offerings to the agency in meaningful ways.

EH won a contract with the U.S. Army Medical Department Activity (USAMEDDAC) at West Point to

provide polytechnical, physical therapy, and pediatric occupational therapy services. The health care support will be provided at Keller Army Community Hospital in West Point, NY, and in outlying clinics in the West Point area. This contract has a one-year base year with four option years. EH is honored to again be the contractor selected to support our military and their families.

EH was awarded a contract with the U.S. Office of Personnel Management (OPM). This is a new customer for EH, and we

are pleased to work with this agency.

EH was awarded a contract with the Department of Homeland Security Immigration and Customs Enforcement (ICE) Office

of Asset and Facilities Management, Safety and Occupational Health Division (SOHD). The SOHD is the department that provides all ICE employees with occupational health services. This is a new customer for EH.

EH was awarded a Federal Deposit Insurance Corp Occupational and Clinical Health Services contract. This is a new federal

customer for EH.

Community Support

- EH hosted a Spring Diaper Drive, Northern Virginia Family Service (02/21/2022 - 03/22/2022)
- Hosted a Toys for Tots campaign, DHA CRM (10/27/2022 - 12/16/2022)

Workshop Training

EH facilitated the 2022 Health & Wellness Program, a series of monthly wellness webinars.

Wolf Lake Services

Newly Certified ANC(8)a

On August 18, 2022, Wolf Lake Services (WLS) was certified into the Small Business Administration's (SBA) 8(a) Program. As an 8(a) small business, WLS is eligible for sole-source contracts up to \$25 million from Federal Civilian Agencies and \$100M from agencies within the Department of Defense. It will also compete for 8(a), and small business set aside contracts.

Concentric Methods

Awarded Task Order

Concentric Methods won a task order via the Medical Q Coded Support and Services contract for three Post Anesthesia Care Unit (PACU) Registered Nurses at Lackland Air Force Base, San Antonio, TX.

Kwaan Tech

Contract Wins

Kwaan Tech received its first prime contract in September 2022, providing Audio Visual

Engineering and Modernization for the Army Information Systems Engineering Command and Joint Interagency Task Force – South

Kwaan Tech was awarded new contract with the Department of the Treasury to provide

Audio Visual Maintenance and Repair Services to the Alcohol and Tobacco Tax and Trade Bureau

Kwaan Tech received a new award, and Cape Fox's first contract with the Department of State, to provide professional and

administrative services to the Department of State Bureau of Diplomatic Security High Threat Programs Directorate. ■

CapeFoxFCG.com

CFFS Graduates from the SBA 8(a) Business Development Program

On December 19, 2022, Cape Fox Facilities Services (CFFS) graduated from the Small Business Administration's 8(a) business development program. The 8(a) program is an essential instrument to financially help economically disadvantaged small businesses gain access to Federal Government contracting. One of the biggest benefits of the 8(a) program to CFFS was the ability to receive sole-source awards. CFFS has many active contracts across a variety of Federal Government customers. At the start of the 8(a) program, CFFS had 43 employees. That number grew to over 760, and to date, we maintain around 320 employees. The 8(a)-contract vehicle is invaluable as an 8(a) business can self-market its capabilities and solutions to a potential government customer to get a set-aside contract without having to openly compete against other businesses. In the 8(a) program, there are limited competitors, who also decrease the field of competition.

Contract News

DHA Application Support Contract

On December 14, 2022, our contract with the Defense Health Agency (DHA) to provide Application Support Services ended. While the Prime contract for the follow-on ultimately was awarded to another ANC, Cape Fox was able to maintain 70% of the workshare through a similarly situated teaming agreement with the new Prime. This started a new strategic partnership and will allow Cape Fox to continue providing IT support to DHA. The subcontract will be with Saxman One, with an effective start of December 23, 2022.

A New Federal Subsidiary

Cape Fox Federal Contracting Group (FCG) has become an industry leader in health-care, professional services, IT and cybersecurity, and construction services. As a result, FCG is growing with a new subsidiary, Cape Fox Mission Systems (CFMS).

CFMS is in the process of applying for the SBA 8(a) Program. Its mission is to provide a broad spectrum of high-impact, customized, advanced technology solutions to meet our customer's most demanding needs in nine key areas of technology, including Artificial Intelligence Technology, C5ISR, Cloud Solutions, Cyber Security, Engineering and Integration, IT Modernization, Mission Planning, Secure Supply Chain, and Software Development.

In today's world, technology is critical to organizational success within the federal government. CFMS's goal is to introduce clients to the latest trends, provide secure comprehensive solutions, and ensure the delivery of expectations in a constantly changing environment. In the vast technology landscape, CFMS will seek ways to streamline and harness emerging solutions at mission speed. To learn more about Cape Fox Mission Systems, visit bit.ly/CFMissionSystems.
